1" HEX GLAM EBONY GLASS

**Glass Mosaics has turned ordinary spaces into elegant works of art with the highest quality glass mosaic tile in a vibrant array of colors. We proudly use 100% recycled glass which sets us apart from other glass tile**

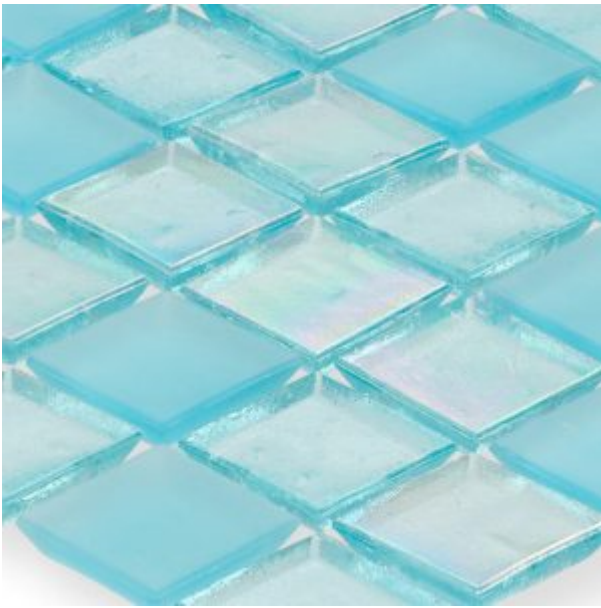

manufacturers. The products are made in north america, and we offer the fastest turnarouimes in the industry. Whether you choose from a variety of pre-defined styles or wish to create your own design, tileform can accommodate your wishes, turning your vision into a beautiful reality.

## huron collection

The huron collection was designed to highlight the depth and breadth of our offering within 16 value blends. It includes an introduction to all 32 base colors and multiple available finishes while including clear and opaque options. It is offered primarily in the classic mosaic shapes of 1" x 1" and 1" x 2".

As with all of our glass mosaic

collections, custom blends are available in the shapes, colors, and finishes offered in this series.

## superior collection

The Superior Collection represents a focused portfolio of eight contemporary and distinctive monochromatic glass mosaic blends. These color blends were created with design guidance from the A&D community. This mosaic series is offered in classic 1" x 1" and 1" x 2" sizes and also introduces two popular shapes, 1" x 4" and

hexagons. Our new Sand finish and Sand with Iridescent finish further enhance the beautiful Superior Collection mosaics.

As with all of our glass mosaic collections, custom blends are available in the shapes, colors, and finishes offered in this series.

## splash collection

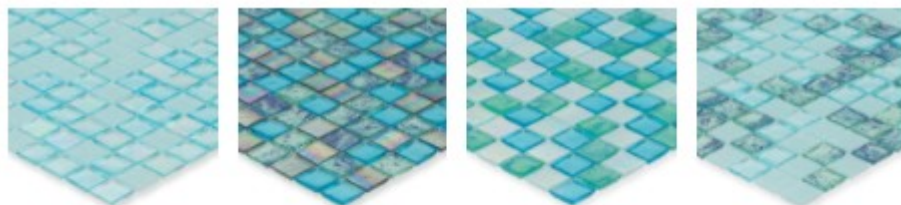

The Splash collection is designed with a focus on outdoor water features but can be used wherever eye-catching color and finish is desired. It is a vibrant collection of distinctive blends in the classic 1" x 1" and 1" x 2" shapes that draw attention to and enhance the beauty of pools, fountains and spas. We have added smalto color options that emphasize uniqueness

of design within each tile so that each installation stands out.

As with all of our glass mosaic collections, custom blends are available in the shapes, colors, and finishes offered in this series.

## gradient collection

The Gradient line includes 6 blends that emphasize a range of both warm and cool colors within the color palette. The patterns allow significant color variation within the installation by changing the concentration of colors from the bottom to the top of the design. The Gradient can be adapted for vertical or horizontal applications of varying height and width. The

result is a unique and seemingly fluid pattern that adds special interest.

As with all of our glass mosaic collections, custom blends are available in the shapes, colors, and finishes offered in this series.
